PROFESSIONAL SUMMARY

Economics graduate specialising in Econometrics & Applied Statistics, with research experience at Khazanah Research Institute. Lead author of published research, co-author of a KRI rental affordability article, and credited researcher for Malaysia's National Housing Policy 2026–2035. Experienced in data preparation, quantitative analysis, research writing and communicating findings.

PROFESSIONAL EXPERIENCE

Consultant Research Assistant | Khazanah Research Institute Jul 2025 – Jun 2026

- Analysed multi-source housing data at DUN, Mukim and district levels to identify rental affordability gaps across Malaysia.
- Contributed quantitative analysis and stakeholder findings to research on rental markets and institutional arrangements for the National Housing Policy 2026–2035.
- Prepared clear presentation slides to communicate research findings to stakeholders.

Policy Research Intern | Khazanah Research Institute Mar 2025 – Jul 2025

- Compiled and analysed DOSM and NAPIC data to establish baseline rental market conditions for a national housing research inception report.
- Conducted literature reviews and desk research on rental markets and housing institutions.

Private Tutor | SPM Economics Nov 2024 – present

- Provided targeted coaching and structured learning materials to a student who improved from Grade C in trial examinations to Grade A in the actual SPM examination.

SELECTED RESEARCH & POLICY CONTRIBUTIONS

Lead Author | Family Planning Decisions and Child Investment Patterns: Evidence from Malaysian Families

AIP Conference Proceedings, 2026

- Designed the survey, cleaned and analysed questionnaire data, specified economic and econometric models, and contributed literature review, desk research and academic writing.
- The preliminary study found no statistically significant relationship between child quality and child quantity in the sample.

Co-author | A Quick Look at the KL Residential Rental Affordability Market

Khazanah Research Institute

- Sourced, cleaned and analysed salary and rental price data; contributed desk research and academic writing.
- Applied the Housing Cost Burden approach to examine rental affordability in Kuala Lumpur.

Credited Researcher | National Housing Policy 2026–2035

- Contributed research on rental market dynamics and institutional arrangements as part of the KRI research team.
